

NOVALON®

NOVALON® is a concentrated degreaser and detergent for technical use. It is nontoxic, non-combustible and biologically degradable. It cleans polluted machines, parts and all water-resistant surfaces. It replaces chlorinated hydrocarbons, petrol and other toxic and combustible degreasers.

USAGE

NOVALON® is used for technical cleaning in industrial facilities, car repair shops, food processing plants and in general maintenance. It is not recommended to be used as a concentrate. It is diluted with water according to the type and level of pollution in the ration of 1:2 up to 1:100

Dilution	A	B	C	D
Parts of NOVALON	1	1	1	1
Parts of water	2	5	10	40-100

A – engines, machine tools, car components

B – strongly polluted floors, machines

C – food processing machines and plants

D – high-pressure cleaning, general cleaning

BENEFITS

- It cleans excellently – it disturbs cohesive forces between dirt and surface; it emulsifies with the dirt to create an emulsion that can be easily rinsed with water and separated into two constituents – dirt and Novalon solution.
- Very economical
- Universal use

USER MANUAL

NOVALON® is applied by spraying, coating or dipping; it is rinsed with water after several minutes of action. The efficiency can be raised markedly if a paintbrush, a brush or pressure is used together with raising the temperature up to 85°C. Do not apply to glass. For aluminum alloys, please test the reaction of NOVALON solution with the surface to be cleaned first.

DISPOSAL

To be disposed of through a sewerage plant after oil substances separation (using a fat separator etc.).

TECHNICAL DATA

pH value (20 °C)	13
Density (20 °C)	1075 kg/m ³
Combustibility	Not combustible
Degreasing level	To less than 200 mg of grease/1 m ² - i.e. "oxygen cleanness"

All products of NOVATO® spol. s.r.o., which are a chemical mixture or a dangerous chemical mixture, are properly classified, marked and equipped with safety data sheets in accordance with the Chemical Act and relevant regulations within the EU. All hazardous mixtures have a safety data sheet, which is freely available on our website www.novato.cz, eventually at our sales representatives and in the sales department of the company. All users of NOVATO® products are legally required to familiarize themselves with the technical and safety data sheets of the product concerned to ensure proper use, storage and handling of the product. Our oral and written technical recommendations, which we transmit with the utmost knowledge, cannot cover all details and conditions of the application and do not exempt users from their own examinations and tests in relation to third party rights. Therefore, the user is obliged to perform tests and tests for individual applications in such a way as to eliminate all risks associated with the application of the chemical mixture, especially the hazardous chemical mixture, as these applications and their conditions are beyond our control possibilities. NOVATO® spol. s.r.o. guarantees the declared quality of its products and the properties described in the technical and safety data sheets.
