

# NOVALON® ULTRA

---

Highly concentrated, non-toxic, non-flammable and biodegradable degreasing and cleaning agent for technical use with increased efficiency. Replaces chlorinated hydrocarbons, gasoline and other toxic and flammable degreasers. Thanks to the increased concentration of active substances and the content of polyelectrolytes, the product achieves exceptional efficiency in the field of degreasing and cleaning even at high dilutions.

## USAGE

---

Cleans soiled machines, components and all water-resistant surfaces. In a pressure device, it creates a thick cream foam for washing vertical surfaces. It disrupts the cohesive forces between the dirt and the surface, emulsifying the dirt into an emulsion that can be easily rinsed off with water. It is supplied as a concentrate. When used on glass, aluminum and painted surfaces, always test the reaction in an unexposed location. Always consult a business technical advisor for specific applications and dilutions.

## DOSAGE AND DILUTION

---

## USER MANUAL

---

It is diluted according to the type and strength of contamination from 1: 4 to 1: 200 with water. It is applied by spraying, painting or immersion, after a few minutes of action it is rinsed off with water. Using a brush, brush or pressure while increasing the temperature of the solution up to 85 ° C significantly increases efficiency. Do not use at temperatures below 10 ° C. The use of the NOVALON® ULTRA product in practice is very universal and economical.

All products of NOVATO® spol. s.r.o., which are a chemical mixture or a dangerous chemical mixture, are properly classified, marked and equipped with safety data sheets in accordance with the Chemical Act and relevant regulations within the EU. All hazardous mixtures have a safety data sheet, which is freely available on our website [www.novato.cz](http://www.novato.cz), eventually at our sales representatives and in the sales department of the company. All users of NOVATO® products are legally required to familiarize themselves with the technical and safety data sheets of the product concerned to ensure proper use, storage and handling of the product. Our oral and written technical recommendations, which we transmit with the utmost knowledge, cannot cover all details and conditions of the application and do not exempt users from their own examinations and tests in relation to third party rights. Therefore, the user is obliged to perform tests and tests for individual applications in such a way as to eliminate all risks associated with the application of the chemical mixture, especially the hazardous chemical mixture, as these applications and their conditions are beyond our control possibilities. NOVATO® spol. s.r.o. guarantees the declared quality of its products and the properties described in the technical and safety data sheets.
