

ELVO PASTA

ELVO® PASTA - electrically conductive paste contains zinc particles which, when installing electrical connections, damage the non-conductive oxidized surface of the contacts like a wire brush. After compression, the zinc particle forms electrically conductive points. The extruded paste on the joint surface protects against subsequent oxidation and moisture.

USAGE

The special composition of ELVO® PASTY is suitable for both screw and compression joints, where it prolongs the life of aluminum and copper contacts. Contact paste is compatible with rubber, polyethylene and other insulating materials. The treated contacts are protected from ambient air and moisture, prevent oxidation and corrosion, create a gas-tight joint providing higher conductivity. Can be used in a wide temperature range.

USER MANUAL

1. Mark the length of the connector on the cable and carefully strip it.
2. Apply a sufficient amount of ELVO® PASTE to both the connector and the wire and assemble the joint.
3. Insert the cable into the connector and rotate the connector around the cable to make it even ELVO® PASTE spreading. Thoroughly clean the cable insulation from the contact paste after installation.

TECHNICAL DATA

Physical state (20 ° C) Vaseline
Grey color
Odor characteristic
Flash point > 200 ° C
Density (20 ° C) 1.1 g / cm³
Self-ignition is not available
Dropping point > 500 ° C
Viscosity 241
Working temperature -25 ° C to +160 ° C

ELVO PASTA

CONTENT

Tuba 225g

STOCK NUMBER

All products of NOVATO® spol. s.r.o., which are a chemical mixture or a dangerous chemical mixture, are properly classified, marked and equipped with safety data sheets in accordance with the Chemical Act and relevant regulations within the EU. All hazardous mixtures have a safety data sheet, which is freely available on our website www.novato.cz, eventually at our sales representatives and in the sales department of the company. All users of NOVATO® products are legally required to familiarize themselves with the technical and safety data sheets of the product concerned to ensure proper use, storage and handling of the product. Our oral and written technical recommendations, which we transmit with the utmost knowledge, cannot cover all details and conditions of the application and do not exempt users from their own examinations and tests in relation to third party rights. Therefore, the user is obliged to perform tests and tests for individual applications in such a way as to eliminate all risks associated with the application of the chemical mixture, especially the hazardous chemical mixture, as these applications and their conditions are beyond our control possibilities. NOVATO® spol. s.r.o. guarantees the declared quality of its products and the properties described in the technical and safety data sheets.
