

MSB® T REGENERATIVE TABLETS

MSB® T regenerating tablets - Concentrated microorganisms for biological parts washer MSB® NOVATO

USAGE

Tablets MSB® T contain a selection of first-class microorganisms specially prepared for the biodegradation of hydrocarbons such as oils, lubricants. They are used to regenerate MSB® K biological cleaning fluid. They reduce the amount of sludge generated during cleaning and neutralize odors.

USER MANUAL

After installing the MSB® biological parts washer, place one regenerative tablet in the tank to activate the biodegradation of oils and lubricants in the cleaning bath. Fill the regenerating tablet in a cleansing bath every 4 weeks.

TECHNICAL DATA

All products of NOVATO® spol. s.r.o., which are a chemical mixture or a dangerous chemical mixture, are properly classified, marked and equipped with safety data sheets in accordance with the Chemical Act and relevant regulations within the EU. All hazardous mixtures have a safety data sheet, which is freely available on our website www.novato.cz, eventually at our sales representatives and in the sales department of the company. All users of NOVATO® products are legally required to familiarize themselves with the technical and safety data sheets of the product concerned to ensure proper use, storage and handling of the product. Our oral and written technical recommendations, which we transmit with the utmost knowledge, cannot cover all details and conditions of the application and do not exempt users from their own examinations and tests in relation to third party rights. Therefore, the user is obliged to perform tests and tests for individual applications in such a way as to eliminate all risks associated with the application of the chemical mixture, especially the hazardous chemical mixture, as these applications and their conditions are beyond our control possibilities. NOVATO® spol. s.r.o. guarantees the declared quality of its products and the properties described in the technical and safety data sheets.
