

UNISPRAY®

G9

Highly effective multifunctional agent designed for lubrication of fine mechanics, loosening of rusted and baked joints, treatment and removal of moisture from electrical equipment, oxidation and also dissolution of tar-based impurities.

USAGE

UNISPRAY® G9 is a clean, colorless penetrating lubricant with the ability to dissolve hydrocarbons. It has a very low surface tension, it forms a long-term protective film on the surface, which protects against moisture and oxidation in aggressive environments. Excellent lubrication, facilitates assembly and disassembly of parts. Removes bitumen and asphalt. It does not damage plastics, rubber and top coats.

UNISPRAY® G9 contains natural plant esters. It does not contain silicone or organic volatile substances - VOC.

All products of NOVATO® spol. s.r.o., which are a chemical mixture or a dangerous chemical mixture, are properly classified, marked and equipped with safety data sheets in accordance with the Chemical Act and relevant regulations within the EU. All hazardous mixtures have a safety data sheet, which is freely available on our website www.novato.cz, eventually at our sales representatives and in the sales department of the company. All users of NOVATO® products are legally required to familiarize themselves with the technical and safety data sheets of the product concerned to ensure proper use, storage and handling of the product. Our oral and written technical recommendations, which we transmit with the utmost knowledge, cannot cover all details and conditions of the application and do not exempt users from their own examinations and tests in relation to third party rights. Therefore, the user is obliged to perform tests and tests for individual applications in such a way as to eliminate all risks associated with the application of the chemical mixture, especially the hazardous chemical mixture, as these applications and their conditions are beyond our control possibilities. NOVATO® spol. s.r.o. guarantees the declared quality of its products and the properties described in the technical and safety data sheets.
