

NOVALON® 2000 SP

Concentrated, water-soluble cleaning liquid forming a protective layer on the surface. Suitable for painted surfaces, structures, machines, bodies, auto-moto parts. It perfectly removes dirt and at the same time the protective layer prevents subsequent contamination, brightens colors, prolongs the life of the surface, resists UV radiation, protects against corrosion.

DOSAGE AND DILUTION

NOVALON® 2000 SP / Water

Machines	1: 1 to 1:10
Skeletons	1: 5 to 1:20
Bodywork	1:10 to 1:20
Pressure washing	1:20 to 1:40

USER MANUAL

For manual application, dilute 1: 1 to 1:20 with hot or cold water, depending on the type and extent of contamination. Apply to contaminated area, leave on - never let it dry! - finally rinse with water. In case of heavy soiling, let it work longer, use sponges, cloths to loosen dirt.

Can be applied by hand spray or low pressure sprayer.

Depending on the extent of contamination, it dispenses a solution of 3 to 5% for machine pressure washing. Hot water increases efficiency. Use the foaming nozzle optimally. Apply the foam to the soiled surface, let it work - never let it dry! - and rinse with clean pressurized water. In case of heavy soiling, increase the concentration or leave it to act longer. The foaming nozzle creates a rich foam for washing even vertical surfaces. Finally, always rinse the surface with clean water. Wear protective gloves when working.

FIELDS OF APPLICATION

NOVALON® 2000 SP is designed for manual and high pressure applications. Effectively removes dirt, dust, biological impurities, insects, grease, oils from all waterproof surfaces. In the foaming nozzle, it creates a dense foam that increases efficiency and use even on vertical surfaces.

After rinsing with Novalon® 2000 SP, a long-lasting protective layer remains on the surface. The product is especially suitable for washing all types of varnishes, for washing, machines, skeletons, products, structures, components and work surfaces.
