

NOVAX® AKTIVÁTOR

NOVAX® ACTIVATOR is a product that accelerates the reaction of the NOVAX® contact instant adhesive.

USAGE

NOVAX® ACTIVATOR accelerates curing and facilitates bonding with NOVAX® instant adhesive on porous materials such as: porcelain, stone, concrete, wood, chipboard, foam rubber, etc. NOVAX® ACTIVATOR accelerates the curing of the adhesive, even in a larger layer on non-porous materials and allows the bonding of larger cracks and poorly bondable plastics.

BENEFITS

- saves time
- easy application
- very effective

USER MANUAL

Remove grease, dust, dirt and other contamination from the bonded surface with TECHNOSOL®. Spray a small amount of activator on both glued parts. Allow the activator to dry. After the activator has dried, apply NOVAX® adhesive and press the two glued parts firmly together.

NOTICE

We do not recommend spraying the activator directly on the adhesive. A crust forms on the surface of the adhesive, which prevents the adhesive from hardening perfectly inside the glued joint.

All products of NOVATO® spol. s.r.o., which are a chemical mixture or a dangerous chemical mixture, are properly classified, marked and equipped with safety data sheets in accordance with the Chemical Act and relevant regulations within the EU. All hazardous mixtures have a safety data sheet, which is freely available on our website www.novato.cz, eventually at our sales representatives and in the sales department of the company. All users of NOVATO® products are legally required to familiarize themselves with the technical and safety data sheets of the product concerned to ensure proper use, storage and handling of the product. Our oral and written technical recommendations, which we transmit with the utmost knowledge, cannot cover all details and conditions of the application and do not exempt users from their own examinations and tests in relation to third party rights. Therefore, the user is obliged to perform tests and tests for individual applications in such a way as to eliminate all risks associated with the application of the chemical mixture, especially the hazardous chemical mixture, as these applications and their conditions are beyond our control possibilities. NOVATO® spol. s.r.o. guarantees the declared quality of its products and the properties described in the technical and safety data sheets.
