

ANAREZ®

ANAREZ® is a product designed to remove common rust from all corrosive materials.

USAGE

When using ANAREZ®, iron oxide (rust) is converted to phosphates, which can be easily removed by rinsing or wiping. The surface is then ready for further editing and use. ANAREZ® is suitable for use wherever it is necessary to remove corrosion from the metal surface and further protect it with paint or otherwise modify it.

BENEFITS

easy application
very effective
saves time

USER MANUAL

Shake ANAREZ® thoroughly before use! The surface to be cut is first mechanically cleaned of dirt (eg with a wire brush, sandpaper). ANAREZ® is applied by brush or spray on the treated surface or you can immerse the objects to be cut into the solution. It is recommended to repeat the procedure several times for more corroded parts. This procedure speeds up the removal of corroded parts. ANAREZ® is left to act on the corroded surface until dry. Then wipe off the resulting powder and you can further modify the surface, for example with paint.

WORK SAFETY

Flammable II. class! After finishing work, wash your hands with warm water and soap, then treat with cream.

STORAGE

Do not store together with food. Out of reach of children. Protect from heat and direct sunlight and possible sources of ignition. Store in original containers with tightly closed closures. Storage temperature 5 to 30 ° C.

DISPOSAL

Small amounts can be disposed of via sewer after dilution with more water and pH neutralization.

TECHNICAL DATA

State (20 °C)	colloidal solution
Density	1070 kg/m ³
Flash point	over 50 °C
Value pH (20 °C)	1-2

All products of NOVATO® spol. s.r.o., which are a chemical mixture or a dangerous chemical mixture, are properly classified, marked and equipped with safety data sheets in accordance with the Chemical Act and relevant regulations within the EU. All hazardous mixtures have a safety data sheet, which is freely available on our website www.novato.cz, eventually at our sales representatives and in the sales department of the company. All users of NOVATO® products are legally required to familiarize themselves with the technical and safety data sheets of the product concerned to ensure proper use, storage and handling of the product. Our oral and written technical recommendations, which we transmit with the utmost knowledge, cannot cover all details and conditions of the application and do not exempt users from their own examinations and tests in relation to third party rights. Therefore, the user is obliged to perform tests and tests for individual applications in such a way as to eliminate all risks associated with the application of the chemical mixture, especially the hazardous chemical mixture, as these applications and their conditions are beyond our control possibilities. NOVATO® spol. s.r.o. guarantees the declared quality of its products and the properties described in the technical and safety data sheets.
