

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## NOVAX gel

Creation date	22nd October 2003	Version	15
Revision date	18th November 2022		

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

- 1.1. Product identifier**  
Substance / mixture NOVAX gel mixture
- 1.2. Relevant identified uses of the substance or mixture and uses advised against**  
**Mixture's intended use**  
Instant glue in gel form  
**The use descriptors**  
IS Use at industrial sites  
PW Widespread use by professional workers  
**Mixture uses advised against**  
Not specified. It is recommended to be used only for specified uses. Other uses may expose users to unforeseeable risks.
- 1.3. Details of the supplier of the safety data sheet**  
**Supplier**  
Name or trade name NOVATO  
Address Uralská 770/6, Praha, 160 00  
Czech Republic  
Identification number (CRN) 62910370  
VAT Reg No CZ62910370  
Phone +420 233 339 688  
E-mail petr.johanides@novato.cz  
Web address www.novato.cz  
**Competent person responsible for the safety data sheet**  
Name ABITEC  
E-mail info@abitec.cz
- 1.4. Emergency telephone number**  
European emergency number: 112

### SECTION 2: Hazards identification

- 2.1. Classification of the substance or mixture**  
**Classification of the mixture in accordance with Regulation (EC) No 1272/2008**  
The mixture is classified as dangerous.

Skin Irrit. 2, H315  
Eye Irrit. 2, H319  
STOT SE 3, H335

#### Most serious adverse physico-chemical effects

Thermal decomposition at high temperatures can release dangerous gases. Avoid inhalation of thermal decomposition products.

#### Most serious adverse effects on human health and the environment

Instantly glues skin, eyes or any connected parts. The mixture is irritating to the eyes (redness, burning in the eyes, tearing, conjunctivitis) and skin (redness, burning, itching). Inhalation of increased vapor concentration leads to respiratory tract irritation (cough, difficulty breathing, severe chest pain). At solidification releases heat. Avoid inhalation of vapors, skin contact and eye contact. The mixture is not classified as harmful to the environment. Do not allow to enter drains, soil, ground or surface water. Follow the instructions for use to avoid risks to humans and the environment. The full text of the classifications and H-phrases is displayed in section 16. 16 of this safety data sheet

# SAFETY DATA SHEET

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## NOVAX gel

Creation date	22nd October 2003	Version	15
Revision date	18th November 2022		

### 2.2. Label elements

#### Hazard pictogram

#### Signal word

Warning

#### Hazard statements

H315 Causes skin irritation.  
 H319 Causes serious eye irritation.  
 H335 May cause respiratory irritation.

#### Precautionary statements

P261 Avoid breathing vapours.  
 P280 Wear protective gloves/protective clothing/eye protection.  
 P302+P352 IF ON SKIN: Wash with plenty of water and soap.  
 P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
 P337+P313 If eye irritation persists: Get medical advice/attention.  
 P501 Dispose of contents/container to in accordance with local regulations by handing over to a person authorized to dispose of waste.

#### Supplemental information

EUH202 Cyanoacrylate. Danger. Bonds skin and eyes in seconds. Keep out of the reach of children.

### 2.3. Other hazards

Neither the mixture nor its components meet the criteria for persistent, bioaccumulative and toxic or highly persistent and highly bioaccumulative substances in accordance with Annex XIII, nor have they been included in the list drawn up in accordance with Article 59, paragraph 1, due to the content of endocrine disruptors , nor has it been determined as a substance with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

## SECTION 3: Composition/information on ingredients

### 3.2. Mixtures

#### Chemical characterization

Mixture.

**Mixture contains these hazardous substances and substances with the highest permissible concentration in the working environment**

Identification numbers	Substance name	Content in % weight	Classification according to Regulation (EC) No 1272/2008	Note
Index: 607-236-00-9 CAS: 7085-85-0 EC: 230-391-5	ethyl 2-cyanoacrylate	80-100	Skin Irrit. 2, H315 Eye Irrit. 2, H319 STOT SE 3, H335 Specific concentration limit: STOT SE 3, H335: C ≥ 10 % Skin Irrit. 2, H315: C ≥ 10 % Eye Irrit. 2, H319: C ≥ 10 %	1

#### Notes

1 A substance for which exposure limits are set.

Full text of all classifications and hazard statements is given in the section 16.

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## NOVAX gel

Creation date	22nd October 2003	Version	15
Revision date	18th November 2022		

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

In all cases of doubt, or when feeling unwell, seek medical advice and show this safety data sheet to the physician. In case of life-threatening conditions, perform resuscitation. Place the unconscious person in a stable position and do not give anything by mouth. Provide warmth and peace, prevent cooling. Do not induce vomiting. Avoid inhalation of vomit in case of spontaneous vomiting.

##### If inhaled

If inhalation occurs, interrupt exposure, rinse mouth with water, inhale fresh air. Seek medical attention if respiratory irritation or difficulty breathing occurs. If necessary (respiratory arrest or irregular breathing) perform rescue breathing.

##### If on skin

In case of contamination, remove contaminated clothing. Wipe off the mixture, wash thoroughly with soap and water, rinse well. Do not use solvents or thinners. Seek medical attention if irritation develops.

##### If in eyes

If the affected person has contact lenses, remove them immediately. Immediately flush eyes with plenty of clean, lukewarm water, especially under the eyelids. Rinse for at least 15 minutes, seek medical attention. If the eyelids stick together, never forcibly separate them. Wash them with lukewarm water and cover with a damp swab, wait until the glue dissolves (approx. 1-3 days). Get medical attention.

##### If swallowed

Do not induce vomiting, rinse mouth with water. Ingestion is unlikely, glue polymerizes in the mouth. When sticking the lips or parts in the oral cavity, merge profusely, do not separate by force. No danger is expected if the polymerized adhesive is ingested.

#### 4.2. Most important symptoms and effects, both acute and delayed

##### If inhaled

Inhalation of elevated concentrations of vapors leads to respiratory tract irritation (cough, difficulty breathing, severe chest pain).

##### If on skin

The mixture is irritating to the skin (redness, burning, itching). It releases heat during solidification, in exceptional cases and with a large amount of the mixture, skin burns may occur.

##### If in eyes

Instantly glues skin, eyes or any connected parts. The mixture is irritating to the eyes (redness, burning in the eyes, tearing, conjunctivitis).

##### If swallowed

not available

#### 4.3. Indication of any immediate medical attention and special treatment needed

Immediate medical attention is not required during normal use of the mixture. It is required only in case of respiratory distress, sticking of parts of the body or if the symptoms reach a certain degree, according to the data in paragraphs 4.1 to 4.2; is symptomatic.

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

##### Suitable extinguishing media

Multipurpose powders, CO<sub>2</sub>, foam, water mist, sand.

##### Unsuitable extinguishing media

Full stream of water.

#### 5.2. Special hazards arising from the substance or mixture

Thermal decomposition at high temperatures or fire may produce hazardous decomposition products. Do not inhale thermal decomposition products.

#### 5.3. Advice for firefighters

Use protective equipment (self-contained breathing apparatus and fire-proof chemical suit). Remove packaging from the reach of fire if you can do so without risk. Cover the product near the fire with spray water or cover with foam. Fire residues and water after treatment should be disposed of as hazardous waste.

# SAFETY DATA SHEET

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## NOVAX gel

Creation date	22nd October 2003	Version	15
Revision date	18th November 2022		

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Prevent unauthorized entry, secure leak area. Ensure adequate ventilation of the spill area, avoid inhalation of vapors. Remove heat sources and sources of ignition. Do not handle open flames at the point of leakage. Avoid contact with skin and eyes - use personal protective equipment.

#### 6.2. Environmental precautions

Ensure escape area, do not allow to enter into sewers, soil, surface and ground water. In the event of a large leak, monitor NPK concentrations or concentrations. TLV and inform the appropriate governmental authorities and the flow or sewerage manager.

#### 6.3. Methods and material for containment and cleaning up

Prevent leakage. In case of leakage, do not wipe off the escaping mixture, pour water over it, wait until the mixture solidifies, then clean with a scraper. Store the polymerized adhesive in a waste container, label and dispose of according to dept. 13.

#### 6.4. Reference to other sections

For recommended personal protective equipment, see Section 8. Dispose of unused product according to section 13.

### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Ensure adequate ventilation of the work area, avoid inhalation of mixture vapors. Protect eyes and skin, use personal protective equipment according to dept. 8. Avoid contact with possible sources of ignition, do not expose to heat, do not heat. Read the instructions for use before use. Observe the applicable safety legislation and protective health. Follow the principles of hygiene when working with chemicals, do not eat, drink or smoke while working. Wash hands with warm soap and water before breaks, meals and after work.

#### 7.2. Conditions for safe storage, including any incompatibilities

Store in original packaging in a dry, cool, well-ventilated place protected from the weather. Store away from food, drink and animal feeding stuffs. Store away from heat sources. Store away from oxidizing agents, acids and bases. Follow the instructions on the label. At storage temperatures above 20 ° C, the shelf life may be reduced.

Content	Packaging type	Material of package
20 g	tube	ALU

#### 7.3. Specific end use(s)

Bonding

### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

##### Czech Republic

##### Government Regulation 330/2023 Coll.

Substance name (component)	Type	Value	Note
ethyl 2-cyanoacrylate (CAS: 7085-85-0)	PEL	1 mg/m <sup>3</sup>	irritating to mucous membranes (eyes, respiratory system) and skin
	PEL	0,19 ppm	
	NPK-P	2 mg/m <sup>3</sup>	
	NPK-P	0,38 ppm	

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## NOVAX gel

Creation date	22nd October 2003	Version	15
Revision date	18th November 2022		

### 8.2. Exposure controls

Protective gloves (material eg polyethylene, polypropylene, butyl rubber, penetration time > 120 min. Unsuitable material: leather, cotton, textile). Observe the recommended penetration time of the glove material. When choosing, follow the manufacturer's recommendations, the material must be impermeable and resistant to the components of the mixture. Replace damaged gloves.

#### Eye/face protection

Safety glasses if there is a risk of eye contact.

#### Skin protection

Protective work clothing. Take off contaminated clothing and wash before reuse.

#### Respiratory protection

Not necessary, avoid inhalation of vapors. In case of increased inhalation exposure, use a mask with a filter, type A, for long-term exposure self-contained breathing apparatus.

#### Thermal hazard

not available

#### Environmental exposure controls

Observe usual measures for protection of the environment, see Section 6.2.

#### More information

Ensure compliance with Government Regulation 361/2007 Coll., which establishes conditions for health protection at work, as amended, and fulfill the obligations contained therein.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

Physical state	liquid
Colour	colourless
Odour	characteristic
Melting point/freezing point	data not available
Boiling point or initial boiling point and boiling range	>200 °C
Flammability	Flammable III. hazard class
Lower and upper explosion limit	data not available
Flash point	>87 °C
Auto-ignition temperature	not determined
Decomposition temperature	data not available
pH	data not available
Kinematic viscosity	data not available
Solubility in water	insoluble
Partition coefficient n-octanol/water (log value)	log Pow 1.42
Vapour pressure	data not available
Density and/or relative density	data not available
Relative vapour density	data not available
Particle characteristics	data not available
Soluble in toluene. Density: 1050 kg /m <sup>3</sup> /20 ° C	

### 9.2. Other information

not available

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

The mixture polymerizes in contact with water, steam, moisture. The reaction is exothermic.

### 10.2. Chemical stability

The mixture is stable under normal environmental conditions, storage and handling.

### 10.3. Possibility of hazardous reactions

The mixture polymerizes in contact with water, steam, moisture. The reaction is exothermic. Furthermore, the polymer in contact with bases, acids, peroxides, alcohols, etc.

# SAFETY DATA SHEET

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## NOVAX gel

Creation date	22nd October 2003	Version	15
Revision date	18th November 2022		

### 10.4. Conditions to avoid

Heating, direct sunlight, contact with open flame.

### 10.5. Incompatible materials

Oxidizing agents, strong acids and bases, alcohols, peroxides.

### 10.6. Hazardous decomposition products

Under normal conditions, the mixture does not decompose. Thermal decomposition at high temperatures or incomplete combustion can release hazardous decomposition products (COx, NOx, hydrocarbons, aldehydes, smoke, soot).

## SECTION 11: Toxicological information

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

The mixture meets the criteria for classification according to EC Regulation No. 1272/2008. The mixture is classified as dangerous in the sense of EC Regulation No. 1272/2008, as amended.

#### Acute toxicity

The mixture is not classified as acutely toxic by any way of exposure.

#### ethyl 2-cyanoacrylate

Route of exposure	Parameter	Value	Exposure time	Species	Sex
Oral	LD <sub>50</sub>	>5000 mg/kg		Rat	
Dermal	LD <sub>50</sub>	>2000 mg/kg		Rabbit	

#### Skin corrosion/irritation

The mixture is classified as irritating to skin, category 2. It irritates the skin.

#### Serious eye damage/irritation

Mixture is classified as eye irritant, category 2.

#### Respiratory or skin sensitisation

Based on available data, the classification criteria are not met.

#### Germ cell mutagenicity

Based on available data the classification criteria are not met.

#### Carcinogenicity

Based on available data the classification criteria are not met.

#### Reproductive toxicity

Based on available data the classification criteria are not met.

#### Toxicity for specific target organ - single exposure

The mixture is classified as toxic to specific target organs after a single exposure, category 3, may cause respiratory irritation.

#### Toxicity for specific target organ - repeated exposure

Based on available data the classification criteria are not met.

#### Aspiration hazard

Based on available data the classification criteria are not met.

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## NOVAX gel

Creation date	22nd October 2003	Version	15
Revision date	18th November 2022		

### 11.2. Information on other hazards

It does not contain substances causing disruption of the endocrine system. Instantly bonds skin, eyes or any joined parts. The mixture irritates the eyes (redness, burning in the eyes, tearing, conjunctivitis) and the skin (redness, burning, itching). When it solidifies, it releases heat, in exceptional cases and with a larger amount of the mixture, skin burns may occur. Inhalation of an increased concentration of vapors leads to irritation of the respiratory tract (cough, breathing difficulties, heaviness in the chest).

## SECTION 12: Ecological information

### 12.1. Toxicity

The ecotoxic effects of the mixture were not assessed. Observe the usual environmental precautions.

### 12.2. Persistence and degradability

The mixture is not biodegradable.

### 12.3. Bioaccumulative potential

Not determined, bioaccumulation is unlikely.

### 12.4. Mobility in soil

It's not mobile.

### 12.5. Results of PBT and vPvB assessment

The mixture does not contain substances from the PBT and vPvB groups according to Annex XIII of the REACH Regulation, as amended. Has not been done.

### 12.6. Endocrine disrupting properties

Substances with these properties in accordance with the criteria set out in Commission Regulation (EU) 2017/2100 or (EU) 2018/605 are not included.

### 12.7. Other adverse effects

The mixture is not classified as harmful to the environment. Pay attention usual environmental protection measures. Avoid leakage into sewers and groundwater or surface water.

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

Dispose of as hazardous waste. Dispose of at an authorized person or to a hazardous waste collection yard. When disposing

Mixture and packaging residues should be disposed of in accordance with local waste disposal regulations. Dispose of the packaging as hazardous waste.

#### Waste management legislation

Act No. 477/2001 Coll., On Packaging, as amended. Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste, as amended.

#### Waste type code

08 04 09\* waste adhesives and sealants containing organic solvents or other hazardous substances

#### Packaging waste type code

15 01 10\* packaging containing residues of or contaminated by hazardous substances

(\* ) - Hazardous waste according to Directive 2008/98/EC on hazardous waste

## SECTION 14: Transport information

### 14.1. UN number or ID number

not subject to transport regulations

### 14.2. UN proper shipping name

not relevant

### 14.3. Transport hazard class(es)

not relevant

### 14.4. Packing group

not relevant

### 14.5. Environmental hazards

not relevant

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## NOVAX gel

Creation date	22nd October 2003	Version	15
Revision date	18th November 2022		

### 14.6. Special precautions for user

Transport in packages that match the properties of the mixture. Observe the prescribed marking for cargo.

### 14.7. Maritime transport in bulk according to IMO instruments

not relevant

## SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Parliament and of the Council of 18th December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing the European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No. 793/93 and Commission Regulation (EC) No. 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, as amended. COMMISSION REGULATION (EU) 2020/878 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH). Commission Delegated Regulation (EU) 2021/849 of 11 March 2021 amending, for the purposes of adapting to technical and scientific progress, Part 3 of Annex VI to Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labeling and packaging of substances and mixtures. REGULATION (EC) No 648/2004 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 31 March 2004 on detergents, as ammended. Commission Regulation (EU) No 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals.

### 15.2. Chemical safety assessment

No chemical hazard assessment was performed for this mixture.

## SECTION 16: Other information

### A list of standard risk phrases used in the safety data sheet

H315	Causes skin irritation.
H319	Causes serious eye irritation.
H335	May cause respiratory irritation.

### Guidelines for safe handling used in the safety data sheet

P261	Avoid breathing vapours.
P280	Wear protective gloves/protective clothing/eye protection.
P302+P352	IF ON SKIN: Wash with plenty of water and soap.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337+P313	If eye irritation persists: Get medical advice/attention.
P501	Dispose of contents/container to in accordance with local regulations by handing over to a person authorized to dispose of waste.

### A list of additional standard phrases used in the safety data sheet

EUH202	Cyanoacrylate. Danger. Bonds skin and eyes in seconds. Keep out of the reach of children.
--------	---

### Other important information about human health protection

The mixture should not be used for any purpose other than that for which it is intended (see point 1.2). Because the supplier can not control the specific conditions of use of the mixture, it is the responsibility of the user to adapt the prescribed warnings to local laws and regulations. Safety information describes the product in terms of safety and can not be considered as technical product information.

### Key to abbreviations and acronyms used in the safety data sheet

ADR	European agreement concerning the international carriage of dangerous goods by road
BCF	Bioconcentration Factor
CAS	Chemical Abstracts Service
CLP	Regulation (EC) No 1272/2008 on classification, labelling and packaging of substance and mixtures
EC	Identification code for each substance listed in EINECS
EINECS	European Inventory of Existing Commercial Chemical Substances
EmS	Emergency plan

# SAFETY DATA SHEET

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## NOVAX gel

Creation date	22nd October 2003	Version	15
Revision date	18th November 2022		

EU	European Union
EuPCS	European Product Categorisation System
IATA	International Air Transport Association
IBC	International Code For The Construction And Equipment of Ships Carrying Dangerous Chemicals
ICAO	International Civil Aviation Organization
IMDG	International Maritime Dangerous Goods
IMO	International Maritime Organization
INCI	International Nomenclature of Cosmetic Ingredients
ISO	International Organization for Standardization
IUPAC	International Union of Pure and Applied Chemistry
LD <sub>50</sub>	Lethal dose of a substance in which it can be expected death of 50% of the population
log Kow	Octanol-water partition coefficient
NPK	Maximum admissible concentration
OEL	Occupational Exposure Limits
PBT	Persistent, Bioaccumulative and Toxic
PEL	Permissible Exposure Limit
ppm	Parts per million
REACH	Registration, Evaluation, Authorisation and Restriction of Chemicals
RID	Agreement on the transport of dangerous goods by rail
UN	Four-figure identification number of the substance or article taken from the UN Model Regulations
UVCB	Substances of unknown or variable composition, complex reaction products or biological materials
VOC	Volatile organic compounds
vPvB	Very Persistent and very Bioaccumulative
Eye Irrit.	Eye irritation
Skin Irrit.	Skin irritation
STOT SE	Specific target organ toxicity - single exposure

### Training guidelines

According to § 103 and § 104 of Act No. 262/2006 Coll., The Labor Code, as amended. Inform the personnel about the recommended ways of use, mandatory protective equipment, first aid and prohibited ways of handling the product.

### Recommended restrictions of use

The mixture should not be used for any purpose other than that for which it is intended (see point 1.2). Because the specific conditions of use of the substance are beyond the control of the supplier, it is the responsibility of the user to adapt the prescribed warnings to local laws and regulations. Safety information describes the product in terms of safety and can not be considered as technical product information.

### Information about data sources used to compile the Safety Data Sheet

Manufacturer data and toxicological databases.

### The changes (which information has been added, deleted or modified)

Adaptation of BL updated Annex II of the REACH Regulation as amended by Commission Regulation (EU) 2020/878. Update of BL according to valid legislation, in accordance with Commission Regulation (EU) No. 2015/830, modification of wording of H and P sentences according to current version of Regulation 1272/2008.

### Statement

The safety data sheet contains the data needed to ensure safety and health at work and environmental protection. These data correspond to the current state of knowledge and experience and are in accordance with applicable legal regulations. They can not be considered as a guarantee of the suitability and usability of the product for a specific application. The user is responsible for the treatment under existing laws and regulations.
