

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## K3

Creation date	22nd October 2003	Version	5
Revision date	22nd December 2022		

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

**1.1. Product identifier** K3  
Substance / mixture mixture

**1.2. Relevant identified uses of the substance or mixture and uses advised against**  
**Mixture's intended use**

Limescale remover

#### The use descriptors

IS Use at industrial sites

PW Widespread use by professional workers

#### Mixture uses advised against

The product should not be used in ways other than those referred in Section 1.

**1.3. Details of the supplier of the safety data sheet**

#### Supplier

Name or trade name	NOVATO
Address	Uralská 770/6, Praha, 160 00 Czech Republic
Identification number (CRN)	62910370
VAT Reg No	CZ62910370
Phone	+420 233 339 688
E-mail	petr.johanides@novato.cz
Web address	www.novato.cz

#### Competent person responsible for the safety data sheet

Name	ABITEC
E-mail	info@abitec.cz

**1.4. Emergency telephone number**

European emergency number: 112

### SECTION 2: Hazards identification

**2.1. Classification of the substance or mixture**

#### Classification of the mixture in accordance with Regulation (EC) No 1272/2008

The mixture is classified as dangerous.

Skin Irrit. 2, H315

Eye Irrit. 2, H319

Aquatic Chronic 3, H412

#### Most serious adverse physico-chemical effects

The mixture is acidic. Danger of violent exothermic reactions in contact with bases. Avoid contact with oxidizing agents. The mixture is not flammable. Thermal decomposition at high temperatures may cause release hazardous decomposition products. Do not inhale decomposition products.

#### Most serious adverse effects on human health and the environment

ness, conjunctivitis to severe irritation) and skin (redness, burning, itching). Inhalation of the dust may irritate the mucous membranes. When ingested they may experience irritation of the digestive tract, abdominal pain, nausea. Ensure against confusion with food. The mixture is classified as harmful to the environment. Leakage of a large amount of the mixture into the environment

the environment can affect the pH of the aquatic environment. Follow the instructions for use to avoid risks for humans and the environment. Avoid release to soil, ground or surface water or sewers.

Dispose of the empty container with the remains of the mixture as hazardous waste.

The full wording of the classification and H phrases is given in Sect. 16 of this safety data sheet.

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## K3

Creation date	22nd October 2003	Version	5
Revision date	22nd December 2022		

### 2.2. Label elements

#### Hazard pictogram

#### Signal word

Warning

#### Hazard statements

- H315 Causes skin irritation.
- H319 Causes serious eye irritation.
- H412 Harmful to aquatic life with long lasting effects.

#### Precautionary statements

- P273 Avoid release to the environment.
- P280 Wear protective gloves/protective clothing/eye protection.
- P302+P352 IF ON SKIN: Wash with plenty of water and soap.
- P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

### 2.3. Other hazards

Neither the mixture nor its components meet the criteria for persistent, bioaccumulative and toxic or highly persistent and highly bioaccumulative substances in accordance with Annex XIII, nor have they been included in the list drawn up in accordance with Article 59, paragraph 1, due to the content of endocrine disruptors, nor has it been determined as a substance with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

## SECTION 3: Composition/information on ingredients

### 3.2. Mixtures

#### Chemical characterization

Mixture.

**Mixture contains these hazardous substances and substances with the highest permissible concentration in the working environment**

Identification numbers	Substance name	Content in % weight	Classification according to Regulation (EC) No 1272/2008	Note
Index: 016-026-00-0 CAS: 5329-14-6 EC: 226-218-8	sulphamidic acid	90-95	Skin Irrit. 2, H315 Eye Irrit. 2, H319 Aquatic Chronic 3, H412 Specific concentration limit: Skin Irrit. 2, H315: C ≥ 10 % Eye Irrit. 2, H319: C ≥ 10 %	

Full text of all classifications and hazard statements is given in the section 16.

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

In the event of health problems or in case of doubt, consult a doctor and provide him with information from this safety data sheet. In case of life-threatening conditions, perform resuscitation. An unconscious person place in a stable position and do not give anything by mouth. Avoid catching cold. Do not induce vomiting. At by spontaneous vomiting, prevent inhalation of vomitus.

#### If inhaled

Interrupt the exposure, rinse the oral cavity with water, breathe fresh air. They appeared respiratory tract irritation, seek medical attention. If necessary (respiratory arrest or irregular breathing) perform artificial respiration.

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## K3

Creation date	22nd October 2003	Version	5
Revision date	22nd December 2022		

### If on skin

Wash thoroughly with soap and water. Treat with a regenerating cream. Remove clothing if contaminated clothing. If symptoms of irritation appear and persist, seek medical attention.

### If in eyes

If the victim wears contact lenses, remove them. With wide open eyes, rinse from the inner corner eyes towards the outside with a large amount of clean lukewarm water, especially the space under the lids. Flushing for at least 15 min., seek medical attention.

### If swallowed

Do not induce vomiting, rinse mouth with water. Drink a glass of cold water (if the affected person does not have pain or spasms), give 1-2 tablets of activated charcoal. Seek medical treatment and present this Safety Data Sheet.

## 4.2. Most important symptoms and effects, both acute and delayed

### If inhaled

Inhalation of the dust may irritate the mucous membranes.

### If on skin

The mixture is strongly acidic. It irritates the skin (redness, burning, itching).

### If in eyes

The mixture is strongly acidic. Irritating to the eyes (watering, burning, redness, conjunctivitis to severe irritation).

### If swallowed

When ingested they may experience irritation of the digestive tract, abdominal pain, nausea.

## 4.3. Indication of any immediate medical attention and special treatment needed

In the case of the usual use of the mixture and following the instructions in the instructions for use, immediate medical assistance is not required. Special treatment is required if symptoms of a certain degree occur, according to the data in sections 4.1 and 4.2; is symptomatic.

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

#### Suitable extinguishing media

The mixture is not flammable, match the fire extinguishers to the surrounding fire (multipurpose powders, CO<sub>2</sub>, foam, water mist).

#### Unsuitable extinguishing media

Not defined.

### 5.2. Special hazards arising from the substance or mixture

Thermal decomposition at high temperatures can produce dangerous decomposition products (CO<sub>x</sub>, SO<sub>x</sub>, etc.). Do not inhale decomposition products.

### 5.3. Advice for firefighters

Adapt protective equipment to the nature of the fire (self-contained breathing apparatus, emergency suit). Move mixture tanks out of reach of fire if you can do so without risk. Combustion residues even the water after the intervention should be disposed of as hazardous waste.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Prevent the entry of unauthorized persons, secure and isolate the escape area. Ensure adequate ventilation, do not inhale the dust. Minimize the dustiness of the mixture. Avoid contact with skin and eyes - use personal protective equipment. Avoid contact with heat sources.

### 6.2. Environmental precautions

Secure the area of the leak, catch the leaking mixture. Prevent leakage into drains, soil, surface and groundwater. In the event of a large liquid leak, monitor the NPK concentration or TLV and inform the relevant state authorities and the manager of the stream or sewer.

### 6.3. Methods and material for containment and cleaning up

Pick up mechanically. Observe the dust limit. Place in a sealable waste container and dispose of as hazardous waste or forward for further processing. Wash the contaminated area with water.

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## K3

Creation date	22nd October 2003	Version	5
Revision date	22nd December 2022		

### 6.4. Reference to other sections

See the Section 7, 8 and 13.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Ensure sufficient ventilation of the work area. Avoid exposure to heat sources. Protect your eyes and skin, do not inhale dust, use personal protective equipment according to sec. 8. Prevent confusion with groceries. Secure the container against spillage. Keep the work area clean and clear. Working the area should be equipped with a source of drinking water to provide first aid. Observe the applicable health and safety legislation. Follow the principles of work hygiene with chemicals, do not eat, drink or smoke while working. Wash your hands with warm water before breaks, meals and after work soapy water.

### 7.2. Conditions for safe storage, including any incompatibilities

Store tightly closed in the original packaging in a clean, dry and well-ventilated place. Protect from atmospheric moisture. The warehouse should be equipped with a source of drinking water. Store separately from strong bases and oxidizing agents. Store away from food, drink and feed. Follow the instructions given on the label.

Content	Packaging type	Material of package
10 kg	bucket	
30 kg	bucket	

### 7.3. Specific end use(s)

not available

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

The mixture does not contain any constituents of national exposure limits specified in Annex 2, Government Decree 361/2007 Coll., As amended or European Union for Work Environment.

### 8.2. Exposure controls

Ensure sufficient ventilation of the work area. In case of increased dustiness, use a suitable one protection of the respiratory system. Avoid contact with skin and eyes, do not inhale the sprayed mixture. Comply hygienic measures for working with chemicals. The work area should be equipped with sources of drinking water. Do not eat, drink or smoke while working. Wash your hands with lukewarm water before breaks, meals and after work with soap.

Adapt personal protective equipment to the nature of the work.

#### Eye/face protection

Dustproof safety glasses.

#### Skin protection

Protective work clothing or footwear. Wash the affected skin, treat it with a protective cream. Remove contaminated clothing and wash before re-use. Protective gloves (material e.g. nitrile 0.11 mm, penetration time > 480 min.). Be careful when choosing manufacturer's recommendations, the material must be impermeable and resistant to the components of the mixture. Before the first test for use at a specific workplace. Replace damaged gloves.

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## K3

Creation date	22nd October 2003	Version	5
Revision date	22nd December 2022		

### Respiratory protection

In case of increased dust, use a respirator or mask with dust filter. At long-term exposure or in the event of an accident, use a self-contained breathing apparatus.

### Thermal hazard

Heating the mixture releases dangerous gases. Avoid heating the mixture and exposure elevated temperatures.

### Environmental exposure controls

Observe the usual environmental protection measures. Prevent leakage into drains, soil, waterways and environmental components.

### More information

Ensure compliance with governmental regulation 361/2007 Coll., Laying down the conditions for the protection of health at work, as amended, and to fulfill the obligations contained therein.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

Physical state	solid
Colour	Yellowish to white
Odour	characteristic
Melting point/freezing point	data not available
Boiling point or initial boiling point and boiling range	data not available
Flammability	The product is non-flammable.
Lower and upper explosion limit	data not available
Flash point	data not available
Auto-ignition temperature	data not available
Decomposition temperature	data not available
pH	1.2 (1% solution)
Kinematic viscosity	data not available
Solubility in water	soluble (approx. 210 g/l at 20 °C, 470 g/l at 80 °C)
Partition coefficient n-octanol/water (log value)	data not available
Vapour pressure	0.0078 hPa at 20 °C
Density and/or relative density	data not available
Relative vapour density	data not available
Particle characteristics	data not available

### 9.2. Other information

Density and/or relative density (at 20 °C): 2130 kg/m<sup>3</sup>

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

If the recommended method of use is followed, there is no risk of dangerous reactions. The mixture is strongly acidic, danger of exothermic reaction in contact with bases. The mixture must be added to the water, not the other way around, slowly and with constant stirring.

### 10.2. Chemical stability

The mixture is stable under normal environmental conditions, storage and handling.

### 10.3. Possibility of hazardous reactions

In contact with bases, a dangerous exothermic reaction, heat generation and splashing may occur reaction mixtures. Hazardous gases may be released by reaction with oxidizing agents. The mixture reacts with metals, halogens and water.

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## K3

Creation date	22nd October 2003	Version	5
Revision date	22nd December 2022		

**10.4. Conditions to avoid**

Very high temperatures, frost, air humidity, contact with incompatible substances.

**10.5. Incompatible materials**

Strong bases, oxidizing agents, metals, halogens, water.

**10.6. Hazardous decomposition products**

Under normal conditions, the mixture does not decompose. They could by thermal decomposition at high temperatures  
dangerous decomposition products: COx, SOx, etc.

**SECTION 11: Toxicological information**

**11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008**

The mixture meets the criteria for classification according to EC Regulation No. 1272/2008. The mixture is classified as dangerous in the sense of EC Regulation No. 1272/2008, as amended.

**Acute toxicity**

The mixture is not classified as acutely toxic by any way of exposure.

sulphamidic acid					
Route of exposure	Parameter	Value	Exposure time	Species	Sex
Oral	LD <sub>50</sub>	>1600 mg/kg		Rat	
Dermal	LD <sub>50</sub>	>2000 mg/kg		Rabbit	

**Skin corrosion/irritation**

The mixture is classified as irritating to the skin, category 2. Even in diluted form it can show irritating effects on the skin.

**Serious eye damage/irritation**

The mixture is irritating to the eyes, category 2. Even diluted it has irritating effects on the eyes.

**Respiratory or skin sensitisation**

Based on available data, the classification criteria are not met.

**Germ cell mutagenicity**

Based on available data, the classification criteria are not met.

**Carcinogenicity**

Based on available data, the classification criteria are not met.

**Reproductive toxicity**

Based on available data, the classification criteria are not met.

**Toxicity for specific target organ - single exposure**

Based on available data, the classification criteria are not met.

**Toxicity for specific target organ - repeated exposure**

Based on available data, the classification criteria are not met.

**Aspiration hazard**

Inhalation of dust can cause irritation of the respiratory tract and mucous membranes.

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## K3

Creation date	22nd October 2003	Version	5
Revision date	22nd December 2022		

### 11.2. Information on other hazards

It does not contain substances causing disruption of the endocrine system.  
 The mixture is strongly acidic. Irritating to eyes (watering, burning, redness, conjunctivitis to severe irritation) and skin (redness, burning, itching). Inhalation of the dust may irritate the mucous membranes. When ingested they may experience irritation of the digestive tract, abdominal pain, nausea.

## SECTION 12: Ecological information

### 12.1. Toxicity

The ecotoxic effects of the mixture were not assessed. Observe the usual environmental precautions.

#### Acute toxicity

sulphamidic acid				
Parameter	Value	Exposure time	Species	Environment
LC <sub>50</sub>	70.3 mg/l	96 hours	Fish (Pimephales promelas)	
EC <sub>50</sub>	71.6 mg/l	24 hours	Invertebrates (Daphnia magna)	

### 12.2. Persistence and degradability

The organic components of the mixture are biodegradable.

### 12.3. Bioaccumulative potential

Low.

### 12.4. Mobility in soil

The mixture is soluble in water, it is mobile.

### 12.5. Results of PBT and vPvB assessment

The mixture does not contain substances from the PBT and vPvB groups according to Annex XIII of the REACH Regulation, as amended.

### 12.6. Endocrine disrupting properties

Substances with these properties in accordance with the criteria set out in Commission Regulation (EU) 2017/2100 or (EU) 2018/605 are not included.

### 12.7. Other adverse effects

The mixture is classified as harmful to the environment. Mixture leakage can change the pH of the water environment. Prevent leakage into soil, underground or surface water or sewage. Take care of the usual environmental protection measures.

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

Dispose of as hazardous waste, hand over for disposal to a person authorized to handle hazardous waste substances or to the hazardous waste collection yard. Treat contaminated packaging in the same way as with its own dangerous mixture. Do not pour unused product down the drain or dispose of it together with municipal waste. When disposing of the remains of the mixture and packaging, it is necessary to proceed in accordance with local waste disposal regulations.

#### Waste management legislation

Act No. 477/2001 Coll., On Packaging, as amended. Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste, as amended.

#### Waste type code

20 01 14\* Acids  
 06 01 06\* other acids

# SAFETY DATA SHEET

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

**K3**

Creation date	22nd October 2003	Version	5
Revision date	22nd December 2022		

**Packaging waste type code**

15 01 10\* packaging containing residues of or contaminated by hazardous substances  
 15 01 02 plastic packaging  
 (\*) - Hazardous waste according to Directive 2008/98/EC on hazardous waste

**SECTION 14: Transport information**

**14.1. UN number or ID number**

UN 2967

**14.2. UN proper shipping name**

SULPHAMIC ACID

**14.3. Transport hazard class(es)**

8 Corrosive substances

**14.4. Packing group**

III

**14.5. Environmental hazards**

No.

**14.6. Special precautions for user**

Transport in packages that match the properties of the mixture. Observe the prescribed marking for cargo.

**14.7. Maritime transport in bulk according to IMO instruments**

not relevant

**Additional information**

Hazard identification No.

**SECTION 15: Regulatory information**

**15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture**

Parliament and of the Council of 18th December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing the European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No. 793/93 and Commission Regulation (EC) No. 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, as amended. COMMISSION REGULATION (EU) 2020/878 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH). Commission Delegated Regulation (EU) 2021/849 of 11 March 2021 amending, for the purposes of adapting to technical and scientific progress, Part 3 of Annex VI to Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labeling and packaging of substances and mixtures. REGULATION (EC) No 648/2004 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 31 March 2004 on detergents, as ammended. Commission Regulation (EU) No 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals.

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## K3

Creation date	22nd October 2003	Version	5
Revision date	22nd December 2022		

### 15.2. Chemical safety assessment

No chemical hazard assessment was performed for this mixture.

## SECTION 16: Other information

### A list of standard risk phrases used in the safety data sheet

H315	Causes skin irritation.
H319	Causes serious eye irritation.
H412	Harmful to aquatic life with long lasting effects.

### Guidelines for safe handling used in the safety data sheet

P273	Avoid release to the environment.
P280	Wear protective gloves/protective clothing/eye protection.
P302+P352	IF ON SKIN: Wash with plenty of water and soap.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

### Other important information about human health protection

The mixture should not be used for any purpose other than that for which it is intended (see point 1.2). Because the supplier can not control the specific conditions of use of the mixture, it is the responsibility of the user to adapt the prescribed warnings to local laws and regulations. Safety information describes the product in terms of safety and can not be considered as technical product information.

### Key to abbreviations and acronyms used in the safety data sheet

ADR	European agreement concerning the international carriage of dangerous goods by road
BCF	Bioconcentration Factor
CAS	Chemical Abstracts Service
CLP	Regulation (EC) No 1272/2008 on classification, labelling and packaging of substance and mixtures
EC	Identification code for each substance listed in EINECS
EC <sub>50</sub>	Concentration of a substance when it is affected 50% of the population
EINECS	European Inventory of Existing Commercial Chemical Substances
EmS	Emergency plan
EU	European Union
EuPCS	European Product Categorisation System
IATA	International Air Transport Association
IBC	International Code For The Construction And Equipment of Ships Carrying Dangerous Chemicals
ICAO	International Civil Aviation Organization
IMDG	International Maritime Dangerous Goods
IMO	International Maritime Organization
INCI	International Nomenclature of Cosmetic Ingredients
ISO	International Organization for Standardization
IUPAC	International Union of Pure and Applied Chemistry
LC <sub>50</sub>	Lethal concentration of a substance in which it can be expected death of 50% of the population
LD <sub>50</sub>	Lethal dose of a substance in which it can be expected death of 50% of the population
log K <sub>ow</sub>	Octanol-water partition coefficient
NPK	Maximum admissible concentration
OEL	Occupational Exposure Limits
PBT	Persistent, Bioaccumulative and Toxic
PEL	Permissible Exposure Limit
ppm	Parts per million
REACH	Registration, Evaluation, Authorisation and Restriction of Chemicals
RID	Agreement on the transport of dangerous goods by rail

# SAFETY DATA SHEET

The safety data sheet complies with Commission Regulation (EU) 878/2020 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) .

## K3

Creation date	22nd October 2003	Version	5
Revision date	22nd December 2022		

UN	Four-figure identification number of the substance or article taken from the UN Model Regulations
UVCB	Substances of unknown or variable composition, complex reaction products or biological materials
VOC	Volatile organic compounds
vPvB	Very Persistent and very Bioaccumulative
Aquatic Chronic	Hazardous to the aquatic environment (chronic)
Eye Irrit.	Eye irritation
Skin Irrit.	Skin irritation

### Training guidelines

According to § 103 and § 104 of Act No. 262/2006 Coll., The Labor Code, as amended. Inform the personnel about the recommended ways of use, mandatory protective equipment, first aid and prohibited ways of handling the product.

### Recommended restrictions of use

not available

### Information about data sources used to compile the Safety Data Sheet

Manufacturer data and toxicological databases.

### The changes (which information has been added, deleted or modified)

Adaptation of BL updated Annex II of the REACH Regulation as amended by Commission Regulation (EU) 2020/878.

### Statement

The safety data sheet contains the data needed to ensure safety and health at work and environmental protection. These data correspond to the current state of knowledge and experience and are in accordance with applicable legal regulations. They can not be considered as a guarantee of the suitability and usability of the product for a specific application. The user is responsible for the treatment under existing laws and regulations.
